

trip diary

GROUP 5 | VIDEO DEMO

don't you want
an app to log
every feature
of your **trip** in
one place?

The illustration shows two stylized line-art characters. On the left, a person with short hair is looking towards the right. On the right, a person with shoulder-length hair is looking towards the left. Above the person on the left is a speech bubble containing the text 'don't you want an app to log every feature of your trip in one place?'. Above the person on the right is a speech bubble containing the text 'like journals, budgets, photos, maps, attractions!'. There are several small orange dashes scattered around the speech bubbles, suggesting movement or emphasis.

like **journals,**
budgets,
photos, maps,
attractions!

user

1 Single Traveller

Wants to organize information to view all trips taken on 1 platform

2 Family Traveller

Wants suggestions for which attractions to visit while on a trip

3 Photographer

Wants to combine all photos from a trip on a digital album

4 Mapper

Wants to see all locations visited on a trip within 1 map

5 Budgeter

Wants to budget money during a trip and view spending habits
